

EXELUS LABS PRIVATE LIMITED

Impurities | Custom Synthesis | Speciality Chemicals
Certifications: ISO 9001:2015 | ISO 14001:2015 | GMP Certified

Expertise & Experience

Innovative Chemistry. Reliable Partnership.

At **Exelus Labs**, we support innovation by taking on complex challenges in **organic chemical synthesis**. We specialize in producing **custom molecules** for novel products and unique projects, working closely with clients to deliver **high-quality materials** and **reliable methods** that move their work forward.

As part of our **end-to-end service offering**, we provide **custom synthesis** both as stand-alone projects or fully integrated within broader **development and manufacturing programs**.

Our expert teams can engage at **any stage**—from early concept and route scouting to optimizing existing synthesis pathways. We welcome **complex, multi-step synthesis** projects and continually refine our processes to meet evolving needs. With strong support from our **analytical development** and **quality control** teams, we ensure you receive the **right material, at the right quality**.

Capabilities & Specialties

Our state-of-the-art synthetic chemistry laboratories are equipped with **advanced preparative and analytical tools**, and staffed by **highly skilled scientists**. We offer exceptional expertise in:

- **Carbohydrate chemistry**
- **Nucleoside chemistry**
- **Custom molecule design**
- **Scalable process development**

Whether you're developing **pharmaceutical ingredients** or other complex molecules, we deliver **precision, reliability, and scientific excellence** at every step.

Chemistry for All Applications

We collaborate across industries and sectors including:

- **Pharmaceutical**
- **Diagnostics**
- **Academic and Research Institutions**

Our core strength lies in **tailor-made synthesis** to meet your R&D goals.

Get in Touch

We're here to support your innovation. Whether you're exploring a new requirement or seeking a reliable partner for complex synthesis, **reach out to us**.
